

# Jon Allen Capulong Yanga

44 M. Hizon St., Barangay 63, Caloocan City | 0976 005 9285 | allenyanga34@gmail.com | Portfolio: jonallenyanga.vercel.app

## Work Experience

**Quality Assurance Intern**, ABS-CBN Corporation – Quezon City, PH

February 2025 – May 2025

- Conducted manual and functional testing across iWantTFC's website, mobile, and TV platforms to ensure a consistent user experience.
- Performed exploratory, regression, sanity, and UI/UX testing during multiple development phases.
- Designed and executed test cases to validate features and identify defects, supporting overall QA strategy.
- Logged and tracked bugs using Jira, collaborating with developers to resolve issues throughout the defect life cycle.
- Performed basic test automation using Robot Framework and SeleniumLibrary.

## Project Experience

**Personal Portfolio Website**

September 2025

Web Developer | Personal Project

- Developed personal portfolio using Next.js, React.js, and Bootstrap.
- Deployed site on Vercel, optimized for desktop and mobile.
- Showcases projects, skills, and work experience with clean UI/UX.
- Implemented interactive components and responsive design for a better user experience.

**ArtDive: A Web-Based Interactive 360 Virtual Tour for Hall of Visual Arts of UST Museum**

June 2024 – Dec 2024

Full-Stack Web Developer | University of Santo Tomas, Manila (Capstone Project)

- Built a 360° virtual tour using React.js, Next.js, Panolens API, Bootstrap, and custom CSS with interactive features.
- Developed a responsive CMS with a MongoDB backend for content management across devices.
- Integrated media-rich content and conducted user acceptance testing to gather feedback and improve UX.
- Implemented Google Analytics for traffic tracking and Google Login for secure authentication.

**VLCT Portal: An E-commerce Website**

August 2023 – May 2024

Full-Stack Web Developer | University of Santo Tomas, Manila (Software Engineering Course Project)

- Designed and developed key website features using React.js, Next.js, Bootstrap, and CSS to improve UI and navigation.
- Integrated front-end and back-end components with Next.js API routes and MongoDB, using Axios for data fetching, and collaborated via GitHub for version control.
- Contributed to building an admin dashboard for user, order, and inventory management, ensuring responsiveness across mobile, tablet, and desktop devices.
